

Dear Parents:

We are preparing to begin our fundraising efforts again and we want you to be assured that we are taking every precaution to ensure the safety of our teen members.

Like so many companies and people we shut down our fundraising efforts when the State shut down in March. Although we probably could have been deemed an “essential” business, for the safety of our teens we closed our doors. It was difficult to do because we provide a service to Maryland teens that helps them support themselves, their parents and allows them to change their perspectives.

Our charity wants you to know that we have taken every precaution recommended by the CDC in preparing ourselves to continue the good work of helping parents bring their teens to a brighter future.

All teen members will be wearing shields for their faces, rubber gloves and carry alcohol-based hand sanitizers. The vehicle that they will travel in will be thoroughly disinfected twice per day and the teens will have their temperatures taken before they are allowed into the vehicle.

The safety of our teens is paramount and so is the safety of our neighbors. We are taking every precaution to ensure that the teens are not a threat to the community nor to themselves as we raise funds for our charity.

We thank you again for your support and we pray in these harrowing times, it will remain.

Respectfully,

Nathan J. Jackson, Jr.
